

# Josua Boon

## Cybersecurity Analyst

AI Automation Specialist with a background in IT and cybersecurity, now focused on workflow automation and business process improvement. Former SOC analyst within the Dutch Government's Security Operations Center, currently designing automation solutions with Make.com, Gemini AI, and REST APIs to streamline business processes and reduce manual work. Combines hands-on project management, business analysis, and technical documentation skills with an entrepreneurial mindset built from running an independent business. Brings a practical, detail-oriented approach to system integration, process optimization, and stakeholder management.

### Certifications

#### Cybersecurity

CompTIA Cybersecurity Analyst+ (CS0-004)

CompTIA Security+ (SY0-501)

Cisco Certified Network Associate (CCNA)

Microsoft SC-900 (*Security, Compliance & Identity*)

IBM QRadar SIEM Analyst

Splunk Core Certified Power User

iManager (Huawei U2000 & N2510)

#### AI & Automation

Google AI Professional Certificate

(Google/Coursera)

*Completed Certificates: AI Foundations, Brainstorming & Planning, Research & Insights, Writing & Communication, Content Creation, Data Analysis, App Building*

Google AI Prompting Essentials

Postman API Fundamentals Student Expert

#### Project Management

Google Project Management Professional

Certificate (Google/Coursera)

*Completed Certificates: Foundations of Project Management, Project Initiation, Project Planning, Project Execution, Agile Project Management, Capstone Project, AI-Powered Job Search*  
ITIL Foundation

Sociale Verzekeringsbank (Dutch Government)

Cybersecurity Analyst, SOC | 2019 – 2023

- Progressed from SOC intern to Cybersecurity Analyst within six months, based on strong performance in threat detection and incident response.
- Delivered security operations support, analyzing threats and incidents to protect enterprise infrastructure.
- Managed SIEM (Splunk), IPS, next-generation firewalls, and vulnerability management while supporting alert automation.

Sociale Verzekeringsbank (Dutch Government)

Monitoring Specialist, MOC | 2016 – 2019

- Monitored critical infrastructure and collaborated with SOC teams to maintain enterprise system availability.
- Analyzed system events and reported SLA/KPI insights to support ICT service performance.

Earlier Experience

**Fiber Nederland** – Operations Specialist (2015–2016): Resolved copper and fiber network incidents and supported migration projects while coaching the technical helpdesk team.

**KPN (Royal KPN N.V.)** – NOC Engineer, Network Operations Center (2013–2015): Maintained network stability and resolved fiber infrastructure incidents across a national telecom network.

**Online.nl (acquired by T-Mobile Netherlands) / T-Mobile HQ** – Technical Engineer (2011–2015): Resolved ADSL, VDSL, and VoIP incidents while consistently meeting SLA targets.

Education

- College of Multimedia Amsterdam  
Multimedia Engineer (2015–2016)
- Hogeschool Leidse Onderwijsinstellingen  
BA Economics, not completed (2009–2011)
- Horizon College Alkmaar  
Accountancy (2006–2008)
- Regio College Zaandam  
Facility Management (2002–2004)

Professional Development

- AI & Data: 365 Data Science AI Engineer Bootcamp, DeepLearning.AI, AWS Prompt Engineering, Python Essentials (PCEP), Azure Data Fundamentals (DP-900)
- Harvard University – CS50 Cybersecurity (lectures complete)
- CISSP Self-Paced Training (ISC²/TSTC)
- Networking & Security: CompTIA Cybersecurity Analyst+, CompTIA Security+, CCNA 200-301, SC-900, MS-900, , SCOM 2012
- Splunk Training Track: Fundamentals I–III, Visualizations, Searching & Reporting
- Leadership: Practical Leadership Skills, Root Cause Analysis, Focus Mastery
- Digital Marketing: HubSpot & Google Fundamentals
